Note to teachers and students on the marking schemes for the deferred examinations

Marking schemes published by the State Examinations Commission are not intended to be standalone documents. They are an essential resource for examiners who receive training in the correct interpretation and application of the scheme. However, it should be noted that the marking schemes for the deferred examinations may not necessarily be as detailed as the corresponding marking schemes for the main sitting of an examination, which serve to ensure consistency across a large team of examiners.

Marking schemes are working documents. While a draft marking scheme is prepared in advance of the examination, the scheme is not finalised until examiners have applied it to candidates' work and the feedback from examiners has been collated and considered in light of the full range of responses of candidates, the overall level of difficulty of the examination, and the need to maintain consistency in standards between the main sitting and the deferred sitting and from year to year. In the case of the deferred examinations, this means that the level of detail may vary by question, as the marking scheme will only have been finalised for the questions attempted by the candidates who sat these examinations.

In the case of marking schemes that include model solutions or answers, it should be noted that these are not intended to be exhaustive. Variations and alternatives may also be acceptable. Examiners must consider all answers on their merits, and will have consulted with a senior examiner when in doubt.

Future Marking Schemes

Assumptions about future marking schemes on the basis of past schemes (whether for the main examinations or the deferred examinations) should be avoided. While the underlying assessment principles remain the same, the details of the marking of a particular type of question may change in the context of the contribution of that question to the overall examination concerned. Accordingly, aspects of the structure, detail and application of the marking scheme for a particular examination will not necessarily be the same for the deferred sitting as for the main sitting or from one year to the next.

Chords: marks are awarded in the first instance for correct and acceptable chords. This is in the context of (i) the chord fitting the melody line at that point (i.e. until the next change of chord indicated by a box) (ii) the preceding chord and (iii) the following chord.

Chord quality: Marks are awarded here for the musical quality of the overall progressions chosen. While the candidate may have chosen chords that “worked” at any point, there may have been better choices. If that is the case, this will be reflected in the chord quality mark.

Chord Progressions - General points

Same chord in adjacent boxes not accepted unless bass changed or 7th added

Accidental and suffix, where relevant must be fully correct for mark to be awarded

Marks for chords not awarded in isolation. Chords must be part of a good progression.

1. V⁷ - V not accepted
2. Vb or V⁷b should generally be followed by I
3. V – ii generally not accepted
4. ii – I generally not accepted except as approach to Ic in cadential 6/4
5. Cadential 6/4 must be on the stronger of the two beats and at a cadence point
6. Secondary 7ths, if used, must be used correctly i.e. they must be followed by a chord whose root is a 4th higher

Bass Line

No doubling of major 3rd under chord symbol
